Positions of trust: President of European Engine Power Plants Association (EUGINE), German-Finnish Chamber of Commerce, Chairman of the Board; Finnish-Korean Trade Association, Deputy Chairman of the Board; East Office of Finnish Industries Ltd, Member of the Board; Confederation of Finnish Industries, Chairman of the Trade Policy Committee.

Timo Koponen

Vice President Flows & Gas Solutions at Wärtsilä Marine Solutions

Timo Koponen is an experienced business leader with a strong background in marine, ship building and oil & gas industries. He is one of the main architects of Wärtsilä's shift to the gas age, advocating the benefits of wider use of LNG in marine and related industries.

In his role he has the end to end business responsibility for Wärtsilä's pumps&valves and gas process technology operations globally. The businesses include various world class brands for pumps and valves as well as leading gas value chain related technologies such as small scale liquefaction, reliquefaction and regasification for both land based and marine applications.

Prior to this role, Timo Koponen worked as divisional business controller in Marine Solutions having the responsibility also for operational development and various business development related activities.

Jean-Marc Leroy

President of Gas Infrastructure Europe (GIE)

Mr Jean-Marc Leroy was elected President of Gas Infrastructure Europe (GIE) in November 2015. Between 2008 and 2013, he was President of Gas Storage Europe (GSE), the storage column of GIE.

Since 1 January 2016, Jean-Marc Leroy is Managing Director of the Gas Chain Métier at ENGIE. Prior to that he was Chief Executive Officer of Storengy, the underground gas storage operator of ENGIE.

In December 2015, he became Board member of Global Gas Centre within the framework of the World Energy Council. Jean-Marc Leroy is also Chairman of the Supervisory Board of ENSEEIHT, an engineering school of Toulouse's University focusing on energy, environment and IT. Moreover, he is member of the Board of Intragaz (UGS in Quebec) and GST.

Stefan Moser

Head of Unit for Security of Supply, DG Energy, European Commission

Mr Moser was appointed Head of the Security of Supply Unit in DG Energy in March 2015.

Prior to that, he dealt with policy coordination in the Secretariat-General of the European Commission, in particular on climate, energy, environment, transport, agriculture and maritime policies. From 2005 to 2009, he also worked in DG Environment on climate and environment policy, notably greenhouse gas emissions trading, transport emissions and air quality.
