APRIL 2022

## EEF Agenda

### High-Level Roundtables

April - May | *By invitation only*

The European Energy Forum is launching a new series of High-Level Roundtables to offer its Active and Associate Members the opportunity to sit around the same table and discuss key energy issues. Several in-person discussions will be organised gathering **MEPs Active Members of the EEF** and **Heads of office** of our Associate Members around topics linked to the current EU legislation.

## EEF Team Update

### Welcome to Camilla!

Camilla has recently joined our team for a 2-month internship under the Erasmus+ programme.

She is currently enrolled in the Master Programme of "International Relations and European Studies" at the University of Florence. Her main fields of interest are the sustainable energy transition and the policies the EU has been adopting in this regard. Besides, she is also passionate about the cybersecurity aspects of the energy sector.

We wish her a fruitful experience in the energy world!

## EEF Past Online Events

### Permitting procedures & renewables deployment: how to overcome barriers?

15 March

**Deputy-Director General for Energy Ms Wörzdörfer** joined the EEF for a discussion on how to overcome the main obstacles to renewables deployment chaired by the **EEF President MEP Jerzy Buzek**. The topic was developed in light of the developments in Ukraine, which underlined the urgent need for EU energy independence.

## EEF Members update

### Edison becomes Associate Member of the EEF

Edison is a leading Italian and European energy company operating in the supply, production and sale of electricity and gas as well as in energy efficiency and environmental services. It is the second wind energy player in Italy by installed capacity and a leading producer of hydropower, where it has a historical portfolio dating back to the 19th century. It is the second importer of gas and the first importer of LNG in Italy, where it is building last generation high-efficiency CCGTs. Edison has an ambitious development plan for 2030, by when it aims to quadruple its installed wind and solar capacity with an investment of €3 bn. Edison also has projects to further boost its operations in decarbonized gases, alternative mobility, energy efficiency and environmental services.

Edison main contact to the EEF is **Mr Luca Franza**, Head of EU Institutional Affairs.
