

Keynote speaker

Heiko Meyer

Vice President Strategy and Portfolio Management at Wintershall Holding GmbH

Heiko Meyer has a professional background as petroleum engineer (MEng, Dipl.-Ing.). Following his studies at TU Clausthal and the Imperial College London, he joined Shell International where he held different positions in reservoir engineering and business planning in the Netherlands, Oman and Syria, spending a total of seven years in the Middle East.

In 1999, Heiko Meyer joined Wintershall where he held various managerial positions in the areas of field development planning and new business development as well as heading Wintershall Energía, Wintershall's affiliate in Argentina.

Currently, he is Vice President of Wintershall's strategy and portfolio management division.
