

## About the speaker

**Frank Hyldmar**  
*President of ESMIG*

Frank Hyldmar is responsible for Elster's electricity and Smart Grid activities in Europe RoW. In this role he has been transforming the focus of the company from meter product sales to advanced solutions sales and roll out across the full Smart Grid value chain. Frank is President in ESMIG (European Smart Metering Industry Group) where he is deputy chairman and responsible for Multi utility Metering (gas, water, heat metering and electricity) coordination on a European level. Recently he was responsible for an expert group working for European Commission on data security and privacy.
