

# European Energy Forum

## Renewables Permitting

Giles Dickson, CEO WindEurope

# EU wants huge increase in wind capacity

The wind industry can deliver

But we have to sort out the permitting

# How to solve permitting issues?

Identify and share good practice

Digitalise the processes

Increase the number of staff

# The EU Renewable Energy Directive

- Enforce the 2-year rule
- Avoid fast-tracking some renewables
- Positive silence

More RES = energy security

The logo features the word "Wind" in a large, bold, white sans-serif font, with a small white dot above the final 'd'. Below it, the word "EUROPE" is written in a smaller, all-caps, white sans-serif font. The background of the entire image is a dark, atmospheric photograph of a wind farm on a mountain ridge, with a large, curved blade of a wind turbine in the foreground.

**Wind**
