Briefing on Energy **Going back to basics: electricity**

Thursday 3 October | EP Brussels

Working breakfast - Registration required

More info will be shared soon!

EEF Team Updates

Farewell Camilla

Dear EEF Members,

I am leaving the EEF to take up a new professional challenge.

I thank every single one of you for all the kindness and support you have given me for the past year and a half. Working for the EEF has been an amazing experience that I will cherish forever.

Thank you for all the exchanges, the insightful comments and the discussions.

I do hope that our paths will cross again here in Brussels!

- Camilla

New EEF Members

Belgian Nuclear Forum

The Belgian Nuclear Forum brings together most of the companies and institutions active in Belgium in the various applications of nuclear technology. The Belgian Nuclear Forum aims to be the most recognized and accepted reference source of information on nuclear technology and energy, both for the press, policy makers and the general public.

They are part of a commitment to exchange information and knowledge based on scientific facts, in a spirit of objectivity that promotes dialogue between different points of view.

Belgian Nuclear Forum's main contact to the EEF is **Mr Serge Dauby**, *Managing Director*.

NUCLEAIRE

European Biodiesel Board (EBB)

The European Biodiesel Board (EBB) is a Brussels-based non-profit organisation established in 1997. It's an association for producers and importers of biodiesel and renewable diesel (FAME and HVO) in Europe, gathering 34 members across 21 Member-States, representing 75% of European biodiesel output. It represents biodiesel producers using all feedstocks: food/feed crops, waste, residues, and other innovative biogenic materials. The EBB promotes European biodiesel use and is committed to international standards for sustainability in GHG emissions and feedstock supply.

The EBB is integral to the feedstock production value chain, generating co-products such as food, feed, biochemicals, and biopolymers.

EBB's main contact to the EEF is **Mr Xavier Noyon**, *Secretary General*.

Hydrogen Europe

Hydrogen Europe is the leading organisation representing European-based companies and stakeholders that are committed to moving towards a (circular) carbon neutral economy. With more than 600+ members, including EU regions and national associations, we encompass the entire value chain of the European hydrogen and fuel cell ecosystem. Our vision is to propel global carbon neutrality by accelerating European hydrogen industry and we are the industrial key partner of the Clean Hydrogen partnership.

For more information, please visit www.hydrogeneurope.eu.

Hydrogen Europe's main contact to the EEF is **Mr Jorgo Chatzimakakis**, CEO.

EEF Members' News

Heat Pumps: Competitive Clean Tech for all Europeans

25-26 September 2024 – Brussels

The Heat Pump Forum & Award 2024 emphasizes the crucial role of heat pumps in Europe's industrial strategy, aiming to enhance energy security and economic competitiveness. The event brings together key policymakers and industry leaders to develop a strategy for the widespread adoption of heat pumps, essential for Europe's self-reliance and resilience. As a dynamic platform led by the European Heat Pump Association (EHPA), the forum fosters the exchange of visions and expertise, underscoring heat pumps' pivotal role in the EU's clean transition and competitiveness agenda.
