

November 2024 Edition

EEF Agenda

Briefing on Energy
Going back to basics: Energy Trading

Thursday 5 December | Brussels

Afternoon session - Registration required

Dinner- Debate
Energy Priorities of the Polish Presidency

Tuesday 10 December | EP Brussels

Registration required

More info will be shared soon!

EEF Past events

Briefing on Energy
Going back to basics: gas molecules

Thursday 5 September

Speakers from many of the EEF Associate Members went back to the basics of natural gas, biogas, biomethane and hydrogen, explaining the technical characteristics and underlining the developments throughout time.

Dinner- Debate

Electrification: potential, benefits and challenges

Tuesday 17 September

Kicking off the new legislative term!
Thanks to our speakers for presenting electrification as a competitive solution for energy production, contributing to energy security, competitiveness and decarbonization. They illustrated the current costs of electrification, opportunities and challenges for its growth in the industrial and residential sector.

Briefing on Energy

Going back to basics: Electricity

Thursday 3 October

Speakers from many of the EEF Associate Members presented the basics of electricity generation, energy systems, energy grids explaining the technical characteristics of energy generation in a technology neutral perspective.

Dinner- Debate

Maintaining a resilient energy system for a climate neutral and competitive economy:

Regional insights for EU-wide strategies

Tuesday 8 October

Our speakers from Eurogas, TransnetBW and Cepi discussed about the importance of optimizing infrastructure and securing new investments for the integration of renewable and low-carbon gases to decarbonize the energy system.

Briefing on Energy
Going back to basics: Electricity infrastructure

Wednesday 6 November

EEF Associate Members provided an invaluable look into the fundamentals of electricity infrastructure, transmission, distribution, and regulation, highlighting the essential role of resilient grid systems and cross-border synchronization in boosting stability and integrating renewable energy.

Dinner- Debate
The regulators' perspective for a secure, sustainable, and affordable electricity system in 2030 and beyond

Wednesday 13 November

Speakers from the Council of European Energy Regulators and E-Control explained their insights on infrastructure enhancement, cross-border solidarity, and the integration of flexibility for renewables.
